ILAN TECH SOLUTIONS
OUR PRODUCTS

- **CRM (ARUVI)**

- **Billing System - POS**

- **Bio-Metric System (TouchTrack)**

- **Clinical Management System (CMS)**

- **Gate-Pass System (GPS)**

- **Chat System**

- **Authentication Application**

CRM (ARUVI)

- Our CRM (ARUVI) system is an all-in-one platform that streamlines Recruitment, HRM, Finance, and Project management.

- It efficiently handles Client interactions, Accounts tracking, and Asset management.

- With built-in Announcement features, team communication stays clear and updated.

- Boost productivity and collaboration across departments with our integrated solution.

Billing Software – POS

- Our Billing System simplifies invoicing, payment tracking, and financial reporting.

- It ensures accurate and fast bill generation for seamless transactions.

- With GST integration and expense management, it supports complete compliance.

- Ideal for businesses, it enhances efficiency and reduces manual errors.
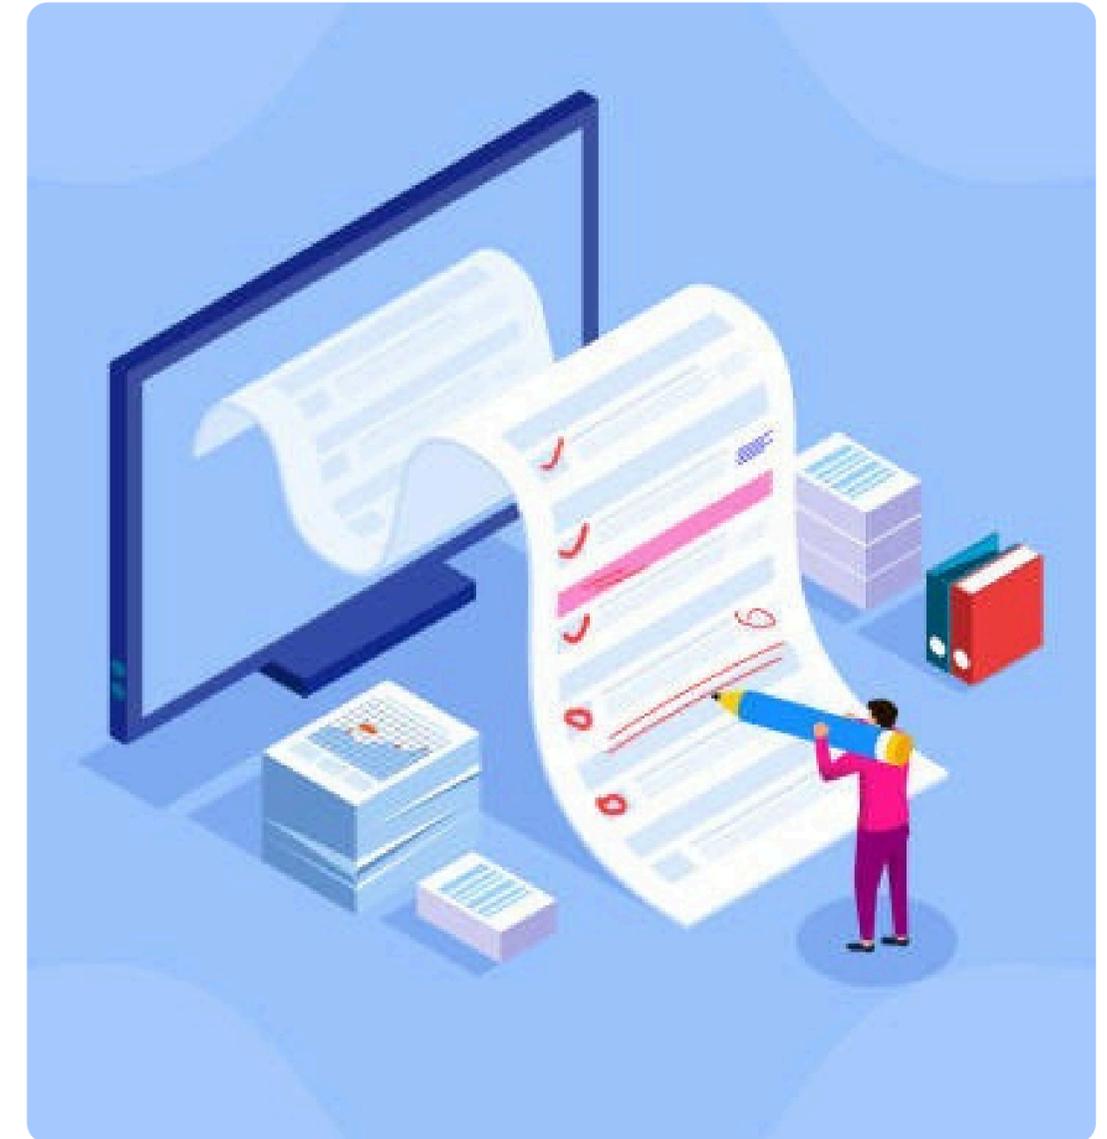

Bio-Metric System (TouchTrack)

- Our Biometric System offers secure, real-time attendance with fingerprint or face recognition.

- It prevents proxy entries and automates leave and shift tracking.

- Seamlessly integrates with HR and payroll systems.

- Fast, accurate, and tamper-proof for efficient workforce management.

ILAN TECH SOLUTIONS

Clinical Management System (CMS)

- Our Clinical Management System manages patient records, appointments, and prescriptions.

- It streamlines doctor scheduling and billing processes.

- Secure and efficient, it enhances clinic operations.

- Ideal for hospitals and healthcare centers.
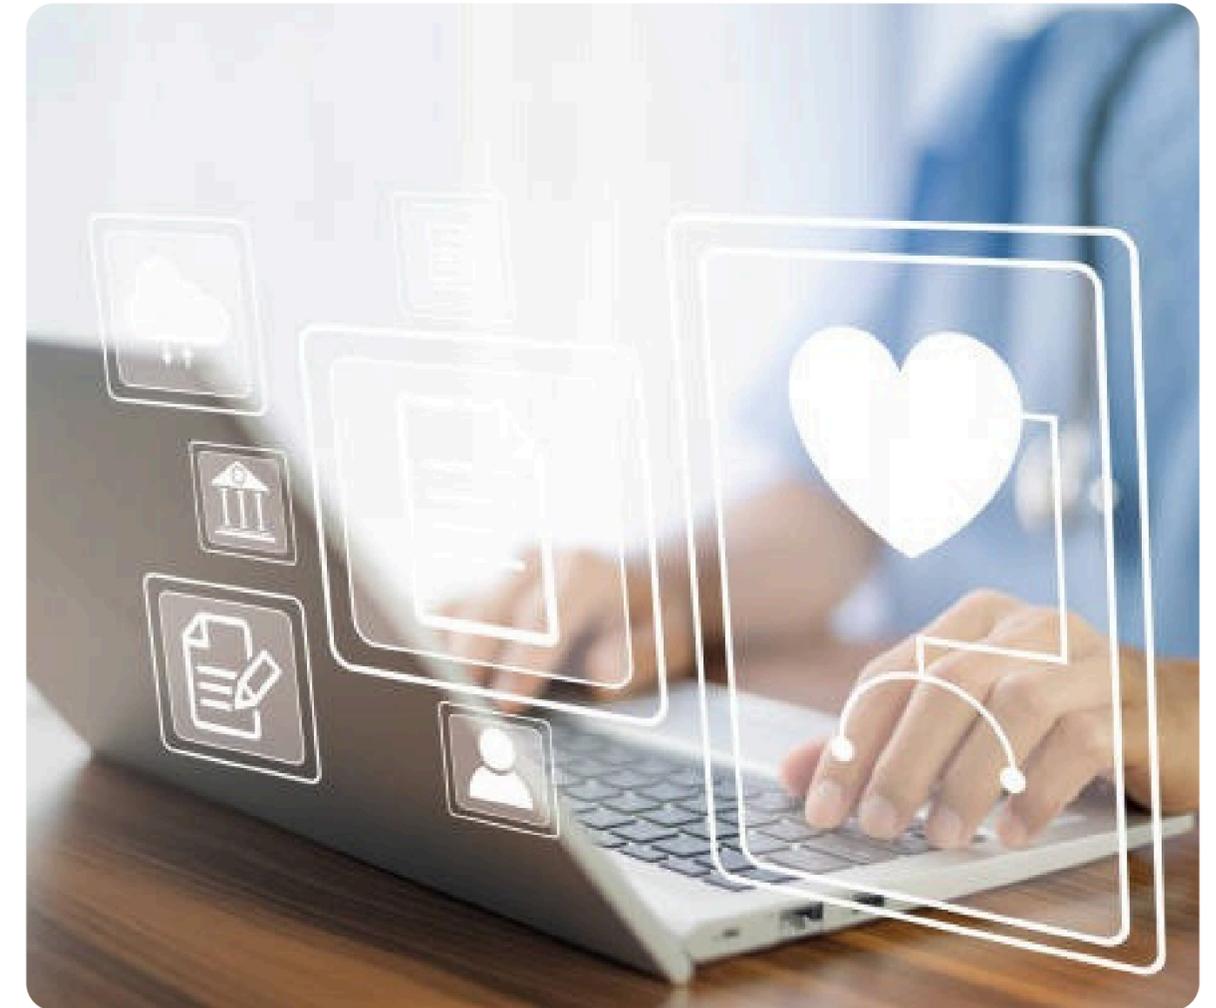

Gate Pass System (GPS)

- Our Gate Pass System streamlines visitor and material movement with digital pass generation.

- It ensures secure entry and exit tracking for employees, guests, and goods.

- Real-time alerts and logs enhance security and accountability.

- Customizable workflows support approvals, validations, and audit-ready records.
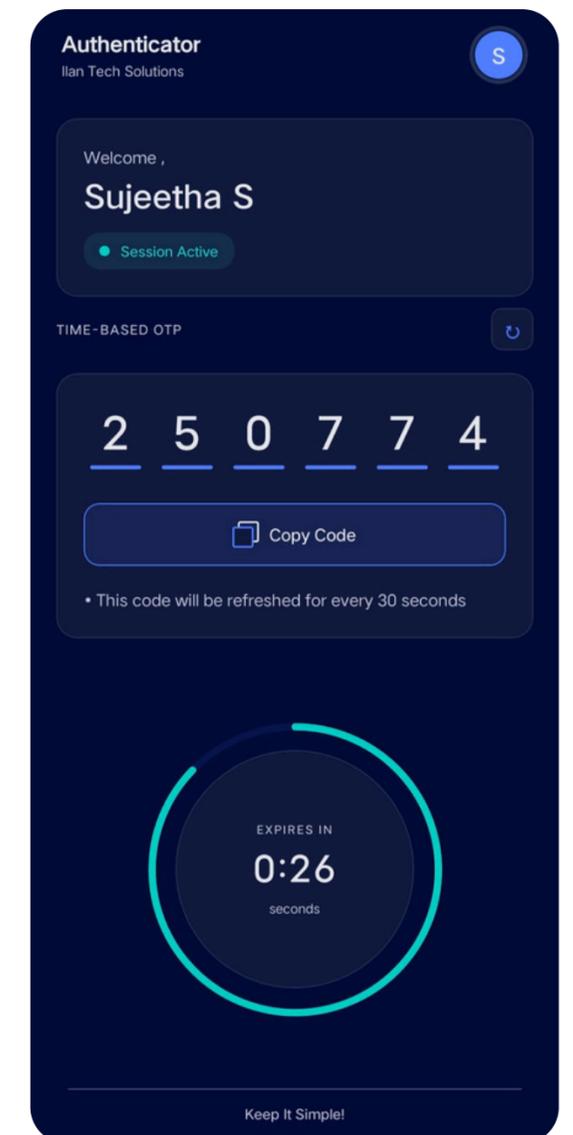

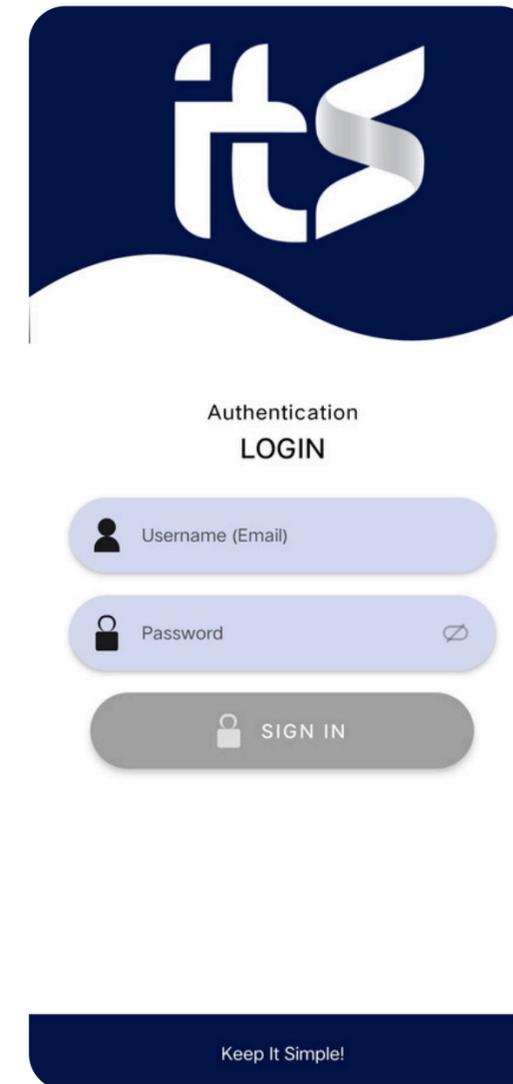

ILAN TECH SOLUTIONS

Chat Sytem

- Our Chat System enables seamless team communication through self, one-to-one, and group chats.

- Mentions and urgent indicators ensure quick attention to important messages.

- File and audio sharing make information exchange effortless.

- Built for speed and security, it strengthens daily team collaboration.

ILAN TECH SOLUTIONS
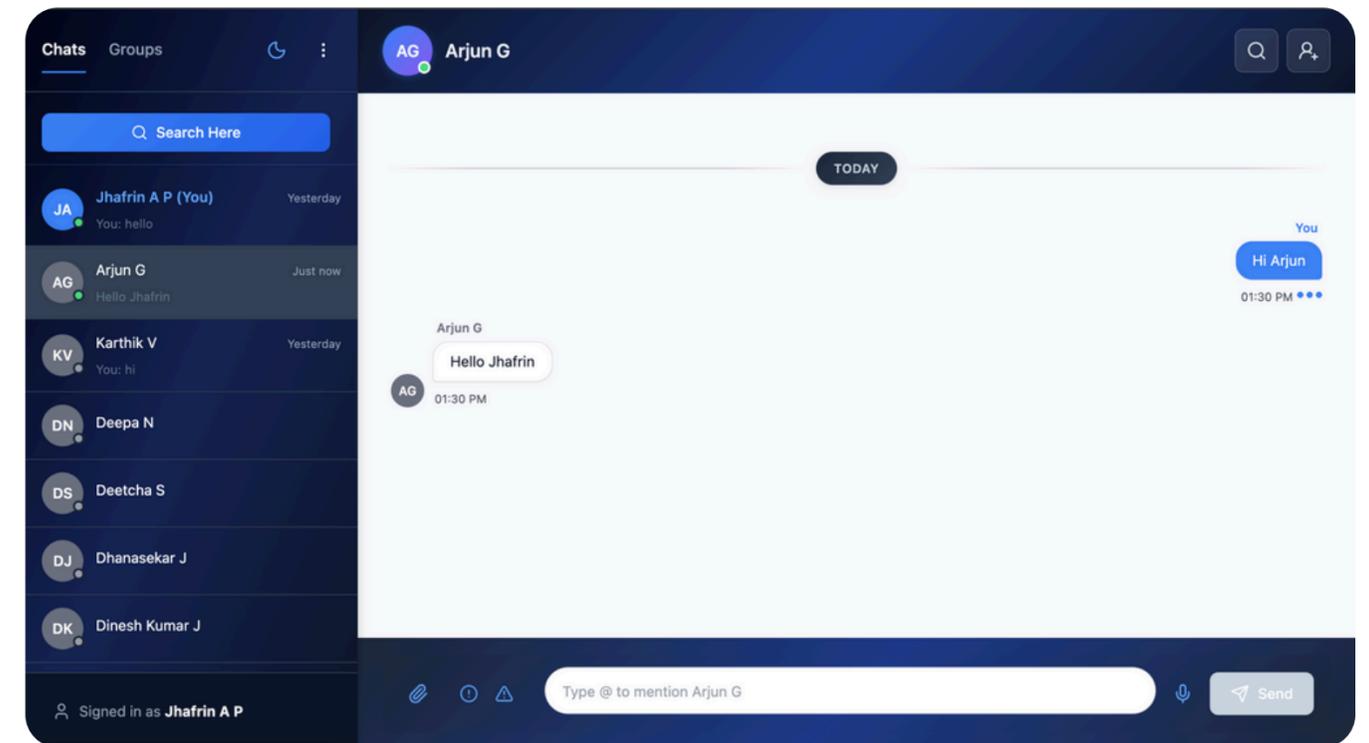

Authentication App

- We have developed a mobile application for secure two-step verification across our internal systems.

- It provides a reliable authentication layer to strengthen user access control.

- Master settings allow admins to customize and modify the verification timer.

- Designed for flexibility and security, it integrates seamlessly with our applications
